

Getting an EEG

1

They will measure and draw small marks on my head with a marker.

☐

2

Each mark will be cleaned.

☐

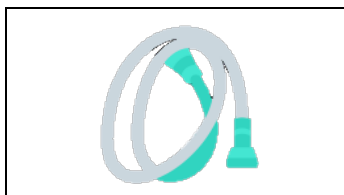

3

Electrode wires will be stuck to my head with glue.

☐

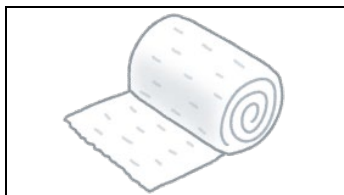

4

The glue will be dried with a tube blowing air.

☐

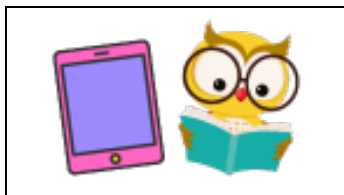

5

My head will be wrapped with soft gauze.

☐

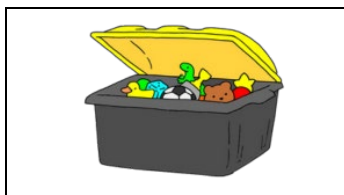

6

I can choose a quiet activity or rest while they monitor me.

☐

7

I may receive a prize or reward.

☐
